

**Space Needs Committee**

**7:00pm**

**Memorial Building**

**June 29, 2011**

Present: Cay Currier, Leigh Callaway, Steven Klein, Tamara Butcher, Tim Julian, Trudy Heath and Cynthia Anderson

Objective: best use of the space that is now opening up now that the Kindergarten has been moved to New London.

Group decided that the best way to deal with the big picture was to break it down into smaller portions. The first area to work on is the Police Station.

Tim presented his idea for retrofitting the current space. Everyone present felt his plan was very well thought out and would greatly improve the station.

Group visited the basement area and meeting room area to include the kindergarten closet located off the current meeting room. The decision was made that the fire proof safe and the Fastroads DSL equipment that will be coming in the future would fit in that location.

Formal proposal would be presented to the Selectmen at their July 11<sup>th</sup> meeting for approval. Tamara volunteered to write up the proposal. Committee approved.

Looked at the Kindergarten room and discussed possible future changes that could be made.

Steve would like to see a long term plan presented to the Town at Town Meeting next year.

Adjourned 8:00pm

Respectfully submitted,

Cynthia Anderson
